PANACAST 20

Engineered for intelligent AI-enabled personal video conferencing

Personal video. Reinvented.

Experience the next generation of intelligent, secure, portable video collaboration with Jabra PanaCast 20. This premium personal video conferencing device utilizes cutting-edge technology to deliver an experience that's unlike any other on the market. Intelligent, powerful, and completely unique; PanaCast 20 is personal video conferencing, completely reinvented.

Picture perfect. Every time.

Our next-generation technology uses advanced processors, powerful on-board AI and a premium 13-megapixel camera to deliver a real-time 4K Ultra-HD image that's sharp and crystal-clear, with virtually no latency or lag. So you can start that big presentation knowing you (and whatever you're presenting) will look your best.

Are you ready for your close-up?

Being seen clearly makes all the difference. Our intuitive AI-driven Intelligent Zoom automatically follows your movements, perfectly framing you, whatever you're doing. Using powerful on-board AI processors, Intelligent Zoom intuitively adjusts your picture in real time, ensuring you're always in the center of the frame, so you don't have to stay rooted to the spot.

Lightyears ahead.

With PanaCast 20, any light is good light. Using powerful on-board AI, Intelligent Lighting Optimization analyzes your environment, and automatically adjusts your image in real time. The result is perfectly balanced lighting, including in rooms where the light is poorly distributed. So even when your lighting conditions aren't perfect, at least your image will be.

Two streams are better than one.

Our unique Picture-in-Picture mode uses powerful on-board AI to combine two real-time video streams into one, displaying the second stream in an integrated window within your main image. Picture-in-Picture mode works with any UC platform, even if they don't support dual-stream devices, helping you to make your presentations more impactful.

Collaborate in confidence.

PanaCast 20 is engineered for data security. A powerful on-board Edge AI chipset drives all of the intelligent features of PanaCast 20, which means everything happens on the device itself. This reduces the risk of a data breach, so you can get on with whatever you're doing, without worrying.

Share what's good. Hide what's not.

We can't all be camera-ready all the time. Thankfully, PanaCast 20 features an integrated privacy cover, to give you total control. Simply slide the intuitive cover across your camera when you'd rather not be seen, and slide it back again when you're ready for your moment in the spotlight.

Seamless UC connectivity.

PanaCast 20 works with all leading UC platforms so you can easily connect in seconds, whatever platform or systems you're using.

Partner with Jabra audio solutions.

Get the most from your PanaCast 20 with Jabra professional-grade audio solutions. Choose from our industry leading range of headsets and speakerphones including Jabra Evolve2 65 and Speak 750.
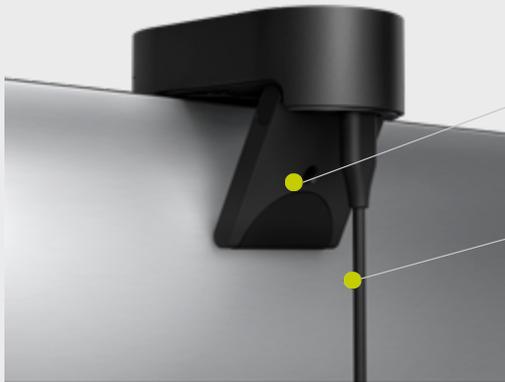

HOW TO CONNECT - SIMPLE SETUP. INSTANT MEETINGS.

PanaCast 20 is plug-and-play. Simply plug the cable into your computer, fix the camera to the top of your laptop screen or monitor using the clip, and you're good to go – wherever you're working.
